INTERNSHIPS

BUSINESS WEB SOLUTIONS | Full Stack Web Developer

Jan 2024 - May 2024 | WFH
- Led and developed an e-commerce application using the MERN stack, integrating features such as user authentication, product management, and order processing.
- Full-stack developer - Wrote and reviewed code for JavaScript using React.js, Node.js, Express.js, and MongoDB, enhancing both front-end and back-end functionalities.

OASIS INFOBYTE | Web Developer

March 2024 – April 2024 | Virtual
- Completed and submitted a comprehensive web development project, creating a dynamic and responsive website using HTML, CSS, JavaScript, and React.
- Front-end developer - Developed user interfaces with React.js, ensuring cross-browser compatibility and responsiveness, while writing clean and maintainable code using HTML and CSS.

PROJECTS

THOUGHT CANVAS - A Blog App (July, 2024) — Live Link

TechStack - NextJS, JavaScript, Node, Express, Tailwind CSS, MongoDB
- Developed a full-featured blog application using Next.js, JavaScript, Node.js, Express, Tailwind CSS, and MongoDB.
- Users can read, add, and delete blog posts, and subscribe to the website for updates.
- The app combines a sleek, responsive design with robust backend functionality for a seamless user experience.

CONFUSE - An E-commerce App (May, 2024) — Live Link

TechStack - MERN stack (MongoDB, Express, React.js, Node.js)
- Developed a comprehensive e-commerce application using MongoDB, Express, React.js, and Node.js.
- Users can browse products, add items to the cart, place orders, and make payments using Stripe with credit/debit cards.
- Admins can manage products, view orders, and update order statuses, ensuring efficient and streamlined operations.
- The app provides a user-friendly shopping experience with powerful administrative controls.

SPOTIFY CLONE - A Music Streaming App (May, 2024) — Live Link

TechStack - MERN stack (MongoDB, Express, React.js, Node.js)
- Developed a music streaming application using MongoDB, Express, React.js, and Node.js.
- Users can browse and play music albums and individual songs, providing a seamless listening experience.
- Admins can manage the music library by adding and deleting albums and songs.
- The app combines a user-friendly interface with robust backend functionality for an enjoyable music streaming experience.
